## IN-LINE WIRE CONNECTORS

### A faster, innovative alternative to the butt splice

SpliceLine®, a revolutionary in-line wire connector utilizes patented push-in technology, the unique design provides a crimp-free, solderless butt splice making applications easier and faster. The 2-port model supports solid wires (20-12 AWG). The end-to-end connection of SpliceLine® is a great solution for today's pre-fab operations and also makes it perfect for lengthening short wires in tight spaces. It easily passes through 1/2" knockouts and the transparent polycarbonate allows for visual inspection, assuring a secure connection every time. It's UL 467 listed for wire splicing and grounding, and made in the U.S.A. by IDEAL, the leader in wire connectors.

**GREAT  
PRE-FAB  
SOLUTION**

MODEL	WIRE RANGE	QUANTITY	PART NO.
42 	Solid: 12 – 20 AWG	Bag of 10	30-1342S
		Box of 100	30-1042
		Jar of 300	30-1042J
		Box of 2,500	30-1642

600V/20A max. 105°C  
For use on insulation types TFN, TFFN, THHN, XHHW, T90 nylon or equivalent.

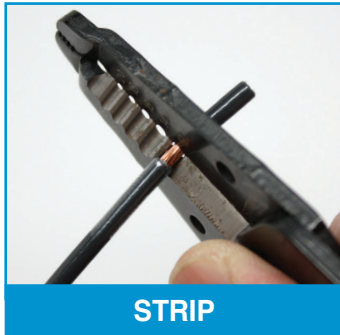

Check port for continuity testing

Transparent polycarbonate shell allows for visual inspection of connection

Accepts solid or stranded wire

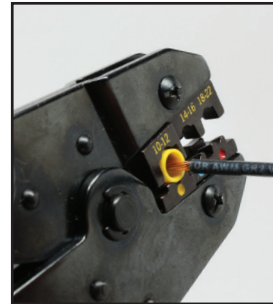

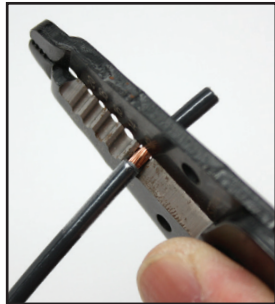

Slip design fits through 1/2 in. knockout

### SpliceLine®: A faster butt splice. A better butt splice.

**75%  
FASTER**  
THAN BUTT SPLICES  
NO MORE CRIMPING
